The President’s Address

Dr. James Solomon: 2014-2015 President

I hope the summer is going well for everyone and your practices are doing well in these challenging times. The crisis de jour that has hit us all this year is the IV and irrigation saline solution shortage; one must be optimistic and patient. As with other previous drug shortages, our specialty has weathered the storm and adapted well. As summer fades and fall approaches and our practices begin to slow down, be sure to take the time and thank our referrals, we need them and they need us.

Oral surgeons are practicing in an ever evolving and challenging environment. Dr. Rob Doriot, Laura Givens and I recently attended the AAOMS Leadership Conference in Chicago. The most common theme of concern from oral surgeons around the country is not only how to accurately predict the future direction of health care, but how general dentists are doing more and we are seeing a substantial decrease in the number of patient referrals as general dentists are attempting to do more. Outside forces are still challenging the “surgeon – anesthetist model” that has been practiced safely for over 50 years, unparalleled to none. We have implemented the updated Office Anesthesia examination policy to comply with the BOD dental anesthesia regulations.

This past year has been very active for the VSOMS as we constantly are called to address new challenges. As most of you are aware, there are continued regulatory issues being discussed at the Virginia Board of Dentistry (BOD), which have direct impact on our day-to-day practice. The Virginia Board of Dentistry is proposing new legislation regarding fee splitting and inducement. Please stand by for more information on that. While on the topic of the BOD, congratulations are in order to Dr. John M. Alexander of Richmond for his appointment to the BOD! We hope that having an oral and maxillofacial surgeon on the Board will foster a respectful and cooperative relationship with board members moving forward.

Our 2015 Annual Meeting will be held at the Westin Virginia Beach Town Center on April 11 and 12. Please plan on attending. Speakers are Dr. Bach Le, Dr. Kanyon Keeney, and Dr. Stuart Lieblich (yes, we have an awesome agenda!). A total of 9 CE credits are being offered. You will also hear from VCU Residents and other leaders in our specialty. This is a great time to get caught up with colleagues, discuss cases, and commiserate!

As always, we are looking for oral surgeons to become involved in the VSOMS and to fulfill our professional obligation to protect and promote our specialty. Thanks to our VSOMS members who attended the AAOMS Annual Day on The Hill this past April.

Lastly, a plug for the AAOMS Practice –Based Research Network (PBRN), OMS PAC and VAD PAC. We urge all members to consider participating and contributing regardless of the giving level.

I cannot close without thanking Brian McAndrew for serving as past VSOMS President. Brian was responsible for a successful 2014 Annual meeting at the Williamsburg Lodge where nearly 90 oral surgeons attended for ACLS recertification and OMSNIC Risk Management Seminar. We appreciate his many hours of dedicated service and the contributions he has made to VSOMS and our specialty now as Chairman of the VSOMS Office Anesthesia Program. It goes without saying this job could not be done without the efforts put forth by Laura Givens. Her diligence to her job is commendable. I also wish to thank everyone who gave that extra time and effort in order to support our society and specialty.

Thank you for allowing me to represent you as President of VSOMS and I look forward to the upcoming year. Please contact me with any questions or comments on how we can better serve you. I will remain vigilant to issues that affect our specialty.

Respectfully submitted,
James M. Solomon, DDS
President, VSOMS
2015 Annual Meeting Schedule

Friday, April 10, 2015
4:00 p.m. - 7:00 p.m. Attendee Pre-Registration
7:00 p.m. - 9:00 p.m. Executive Council Meeting

Saturday, April 11, 2015
7:00 a.m. Registration/ Breakfast in Exhibit Hall
8:00 a.m. The Challenges of Bone Augmentation in the Aesthetic Zone Dr. Bach Le
10:00 a.m. Coffee Break in Exhibit Hall
10:15 a.m. Clinical Realities in Implant Dentistry: Complications Dr. Bach Le
12:15 p.m. Buffet Lunch with Exhibitors
1:00 p.m. Implant Surgery and the OMS: Embracing Change for Practice Success Dr. Kanyon Keeney
2:00 p.m. VCU Resident Presentations
3:00 p.m. Distinguished Service Award and Recognition of New Members
3:15 p.m. Dr. David Johnson, AAOMS Trustee
3:45 p.m. Dr. N. Ray Lee, OMS Foundation
5:30 p.m. - 7:00 p.m. VSOMS Reception in Exhibit Hall

Sunday, April 12, 2015
7:00 a.m. Breakfast in Exhibit Hall
8:00 a.m. Ambulatory Anesthesia: Case Based Focused Review of Techniques and Complications Dr. Stuart Lieblich
10:00 a.m. Coffee Break in Exhibit Hall
10:15 a.m. CE Presentation: Dr. Stuart Lieblich
12:15 p.m. Conclusion of Meeting
Featured Event for Guests: CAbi Trunk Show

VSOMS Meeting Attendees and Guests are Invited to shop at this exclusive clothing trunk show sale.

Saturday, April 11, 2015
9:00 a.m.-12:00 p.m.
Viceroy Room
Hosted by Carol Gammons,
Independent CAbi Consultant

The Challenges of Bone Augmentation in the Aesthetic Zone

Bach Le, DDS, MD

Saturday, April 11, 2015
8:00 a.m.-10:00 a.m.
Fee: Included in registration fee.
Continuing Education Credits: 2

Dr. Bach Le completed his Oral & Maxillofacial Surgery specialty training at Oregon Health Sciences University and is currently Clinical Associate Professor of Oral & Maxillofacial Surgery at the USC School of Dentistry and Assistant Director of Residency Education at USC Medical Center. Dr. Le is a published author in numerous scientific journals and lectures extensively about dental implants and bone regeneration. He is a Diplomate of the American Association of Oral & Maxillofacial Surgeons, the American Dental Society of Anesthesiologist, and the International Congress of Oral Implantologists. Dr. Le holds Fellowship in the International College of Dentists and the International Association of Oral & Maxillofacial Surgeons. Dr. Le has no relevant financial relationships to disclose at this time.

Course Description
Achieving ideal esthetics with bone augmentation for implant site development is often elusive. Numerous techniques, protocols, and materials in hard and soft tissue grafting have been described to manage compromised sites of varying severity. This evidence-based discussion will include the latest techniques in esthetic site development of the compromised implant site. Topics to be covered include patient evaluation and strategies for dealing with the horizontally and vertically deficient ridge. This lecture will also focus on the most current strategies in minimally-invasive bone grafting and tissue management to improve long-term clinical success with dental implants, specifically in the esthetic zone.

Educational Objectives
This course will enable participants to:
- Perform the latest techniques in esthetic site development of the compromised implant site.
- Employ protocols and techniques that should be predictable, minimally invasive, esthetic and lasting.
- Evaluate patients and strategize for dealing with the horizontally and vertically deficient ridge.
- Improve long-term clinical success with dental implants, specifically in the esthetic zone.

Continuing Education for Dr. Le’s Course
The Virginia Dental Association is an ADA CERP Recognized Provider.

ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry.

The Virginia Dental Association designates this activity for 2 continuing education credits.

This continuing education activity has been planned and implemented in accordance with the standards of the ADA Continuing Education Recognition Program (ADA CERP) through joint efforts between The Virginia Dental Association and the Virginia Society of Oral & Maxillofacial Surgeons.
Clinical Realities in Implant Dentistry: Complications

Bach Le, DDS, MD

Saturday, April 11, 2015
10:15 a.m.-12:15 p.m.
Fee: Included in registration fee.
Continuing Education Credits: 2

Course Description
The number of claims related to implant complications has increased significantly over the last few years. Complications associated with implant surgery can have a devastating effect on the final outcome of treatment. This course will focus on how to identify and avoid potential complications before they arise and how to manage many of the common complications that can occur with implant surgery. Emphasis will be given to risk assessment, classifications of complications, and proper treatment planning principles. At the end of this course, participants should be able to diagnose and treat complications related to implant surgery.

Educational Objectives
This course will enable participants to:
· Identify and avoid potential complications before they arise.
· Manage many of the common complications that occur with implant surgery.
· Diagnose and treat complications related to implant surgery.

Implant Surgery and the OMS: Embracing Change for Practice Success
Kanyon Keeney, DDS

Saturday, April 11, 2015
1:00 p.m.-2:00 p.m.
Fee: Included in registration fee.
Continuing Education Credits: 1

Dr. Kanyon Keeney is an oral maxillofacial surgeon that limits his practice to dental implant surgery and bone grafting. Having performed thousands of implant surgeries, and because of his focus and experience, he is a frequent speaker and educator on these topics locally, nationally, and internationally. Dr. Keeney obtained his BS from the University of Connecticut, graduated with honors the Medical College of Virginia and completed his surgery residency at the University Pennsylvania. He has several publications and is heavily involved in research and beta testing of new implant surgery products and techniques. Being seen as an expert in this field, he frequently is asked to treat patients that have significant medical limitations, injuries or have had previous failed implant surgeries. His experience and bone grafting in preparation for implant surgery brings patients from long distances to be treated. He is a Diplomate in the American Board of Oral and Maxillofacial Surgeons, American College of Oral and Maxillofacial Surgeons, and the National Dental Board of Anesthesiology, and a Diplomate and Fellow of the International College of Oral Implantology. Dr. Keeney has no relevant financial relationships to disclose at this time.

Course Description
Implant Dentistry has provided a new paradigm in treatment with potentially exquisite clinical outcomes. The Oral Surgeon, however, faces many challenges in making excellence in this treatment modality a profitable business model. Many changes are on the horizon that will further challenge our role in providing this service for our patients. This lecture will explore some of these challenges and offer possible solutions for practice success.

Educational Objectives
This course will enable participants to:
• Determine their practice business model relative to implant surgery.
• Identify and adapt to the primary challenges faced in their implant surgery practice.
• Develop treatment protocols and surgical techniques that streamline implant surgery in their practice.
• Utilize techniques and materials in grafting procedures that yield consistent, cost effective results.

Ambulatory Anesthesia: Case Based Focused Review of Techniques and Complications
Stuart Lieblich, DMD

Sunday, April 12, 2015
8:00 a.m.-12:15 p.m.
Fee: included in registration fee
Continuing Education Credits: 4

Dr. Lieblich graduated from Rutgers University with highest honors in 1977 and the University of Pennsylvania School of Dental Medicine in 1981. He completed his residency in oral & maxillofacial surgery at Kings County/Downstate Medical Center in New York. He is currently in private practice in Avon, CT and teaches part-time at the University of Connecticut. Dr. Leiblich previously has served as president of the American Dental Society of Anesthesiology and served an eight year term on the American Board of Oral and Maxillofacial Surgery board of Directors. Dr. Lieblich has no relevant financial relationships to disclose at this time.

Course Description
The provision of ambulatory anesthesia is a vital component to the practice of oral and maxillofacial surgery. Dr. Lieblich will provide a lecture with a contemporary review of anesthesia as practiced by the oral and maxillofacial surgeon including a discussion of patient evaluation, medications, and determining who can be treated in an office setting will be discussed. Actual case scenarios will be reviewed to illustrate various issues throughout the day. Included in the discussions will be some recommendations on local anesthetic use and integrating oral sedation into an oral surgery practice.

Educational Objectives
This course will enable participants to:
• Understand basic medical aspects of common systemic diseases, including cardiovascular disease, diabetes, neurologic, and immunologic diseases and how they impact on our anesthesia options.
• Review common and some uncommon medical and anesthetic emergencies that may occur in the office.
• Provide oral sedation techniques specific for the oral surgery practice.
• Review management protocols of common medical emergencies that may occur in the office via actual case-based scenarios.

The 2015 VSOMS Annual Meeting will be held at the
The Westin Virginia Beach Town Center in Virginia Beach, VA

The Westin is located in the heart of Town Center, which is at the core of the central business district and is the home of its cultural, business and retail activities with a mix of upscale retail stores and an array of restaurants. Guests are walking distance from delicious restaurants and high-end shops and only a short drive from the beach and golf courses. Also enjoy an indoor heated pool and newly renovated fitness studio right on the premises.

DEADLINE TO MAKE HOTEL RESERVATIONS: March 13, 2015

Rooms secured through the VSOMS Annual Meeting will be released on March 13, 2015. Reservations made after this date will be handled on a space and rate available basis. The Westin cannot guarantee the VSOMS room rate after this date.

ROOM RATES: $159/night

Check-in time is 4:00 pm. Check-out time is 12:00 noon.
All reservations require a credit card.

RESERVATIONS MAY BE MADE ONLINE BY CLICKING HERE
OR BY CALLING 1-800-937-8461

When calling to make a reservation, please specify that you are attending the Virginia Society of Oral and Maxillofacial Surgeons (VSOMS) meeting to ensure that you receive the discounted room rate.

Those registering for the meeting are responsible for making individual hotel reservations.
